<input type="checkbox"/> Map <input type="checkbox"/> Architectural drawing Other: _____
Miscellaneous:

Generally on Advance Notification

A decision on Advance Notification means that the Enviroment- and Planning Committee examine whether those measures that requires a building permit may be permitted at the intended location. The Enviroment- and Planning Committee, in order to grant a building permit, can determine the conditions that are deemed. A positive Advance Notification is binding for review of building permits within two years from the decision date. The measure may not be started before planning permission exists.
